To Serve and Guard the Earth:

God's Creation Story and Our Environmental Concern

To Serve and Guard the Earth connects the growing Christian environmental concern with the theology of creation in Genesis. It not only provides the participants with a greater understanding of the scriptural accounts of creation and the environmental problems facing us today, but also encourages the participants to make practical applications to change their everyday lives and enhance important environmental values.

Six sessions

Tuesday evenings, 6:30 – 8:00 pm
beginning October 7, 2010:

Oct. 5 — *Light*

energy consumption, outdoor light pollution

Oct. 12 — *Sea & Sky*

potable water, air pollution, climate change

Oct. 19 — *Land & Plants*

deforestation, industrialization, waste management

Oct. 26 — *Birds & Fish*

habitat destruction, species extinction

Nov. 2 — *Land Creatures*

consumption & greed, human disparity, overpopulation

Nov 9 — *Rest & Reflection*

being content with life, the importance of rest
